DESCRIPTION

A unique, sunny city residence in the historic center of Budapest, on Perczel Mór Street, a few steps from Szabadság Square. The home is located in a freshly renovated, turn-of-the-century corner palace, whose elegant facade, historical character and representative surroundings provide a rare foundation for a contemporary premium apartment.

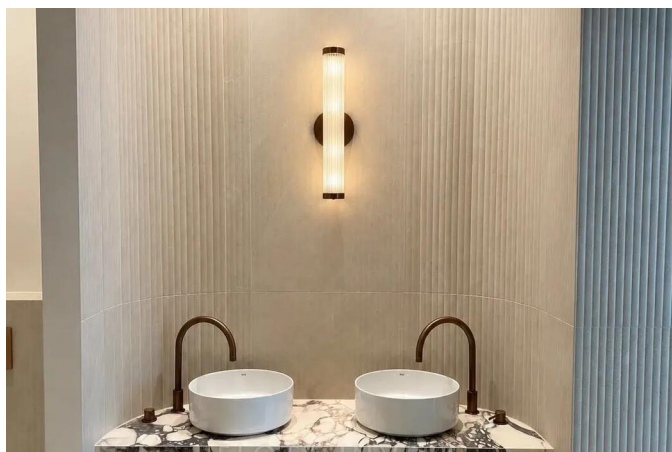

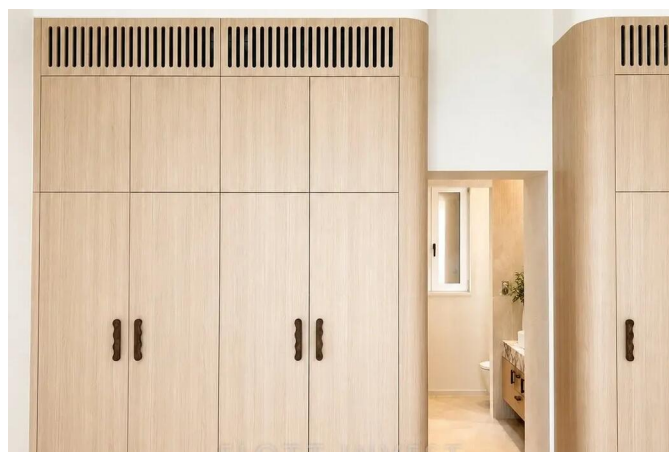

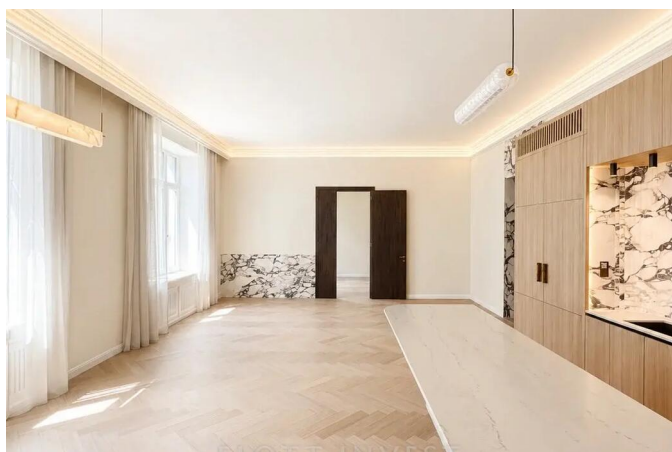

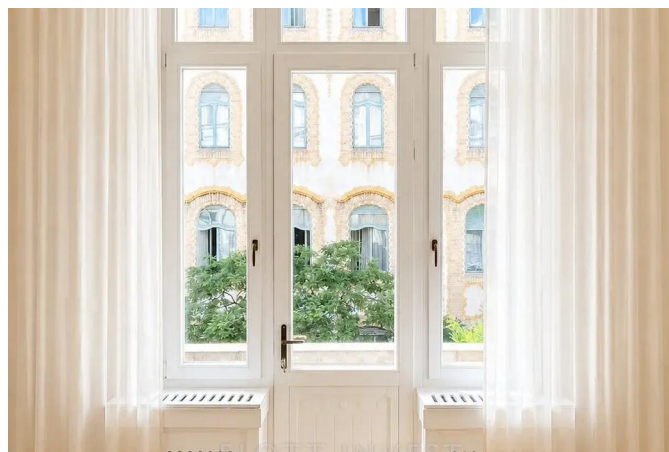

The apartment is bathed in natural light all day long thanks to its south-southeast orientation. The balcony opening from the living room and the loggia connected to the master bedroom offer two separate, private outdoor spaces - a real rarity in the heart of Budapest's downtown core. The apartment offers a stunning view of the Hungarian State Treasury building, one of the most beautiful architectural attractions in the area.

The interior combines the dignity of the historical environment with contemporary, clean living comfort. The combination of generous spaces, natural light, sophisticated use of materials and two private terraces creates a home that is elegant, calm and inspiring at the same time.

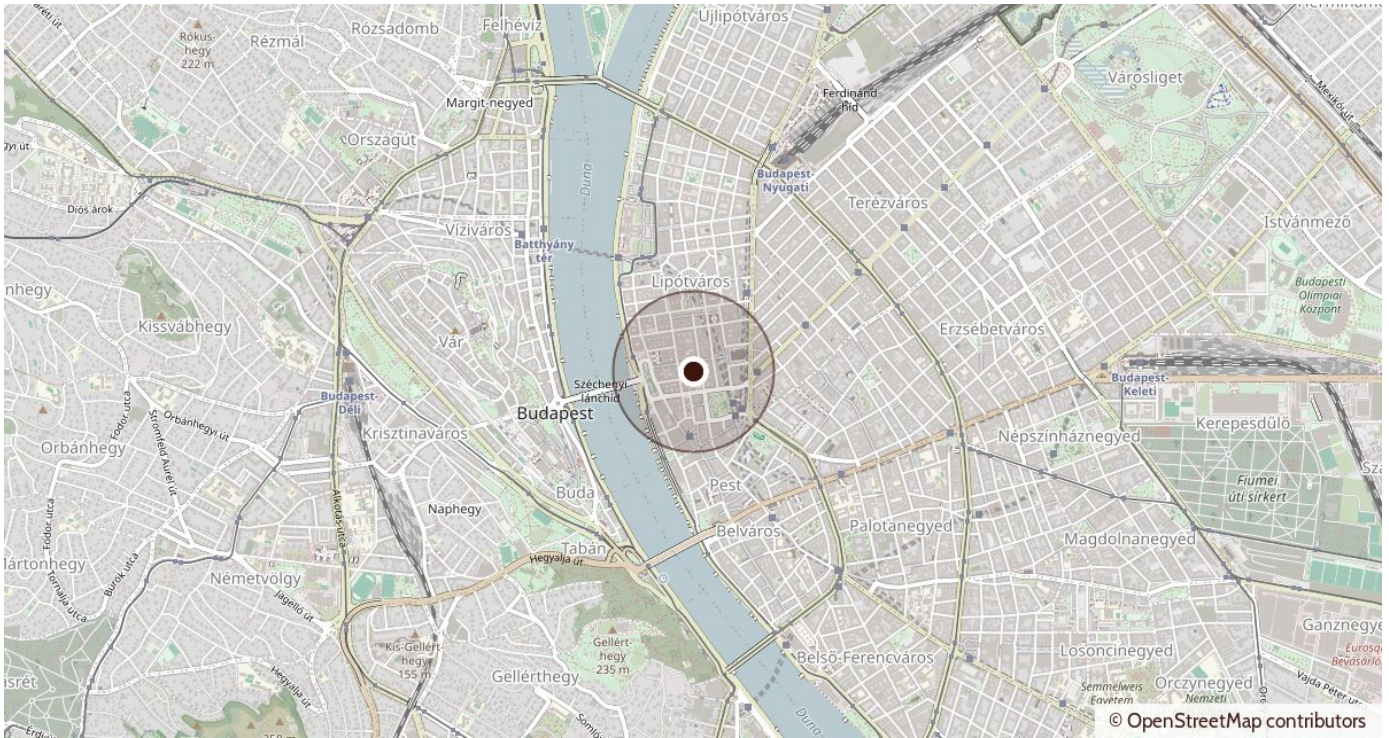

The apartment is an ideal choice for those looking for a characterful yet modern home in one of the most beautiful urban environments in Budapest - an apartment that is nice to come home to and that will retain its value and special atmosphere for many years to come.
