DESCRIPTION

One of the defining features of this upper-floor residence at Törökvész Villa is its elevated position and the remarkable city panorama it commands. The living area and adjoining 27 sqm terrace are oriented towards the city, allowing the view to become an integral part of the living experience.

Törökvész Villa is set on the gentle slopes of Törökvész, surrounded by elegant private residences and established greenery. Its elevated setting, tranquil surroundings and proximity to the city create a rare balance — offering privacy and a sense of retreat while remaining exceptionally well connected to Budapest.

The plot directly in front of the building is also part of the Villa, preserving the openness of the outlook and ensuring that the panorama remains an enduring asset of the residence.

The 122 sqm interior is designed without internal load-bearing walls or columns, allowing the layout to be tailored entirely to the future owner's lifestyle. The residence can accommodate either two or three bedrooms, while retaining generous communal living spaces and a strong connection to the surrounding views.

The residence will be delivered turnkey, with carefully selected materials and a high level of attention to detail throughout. At the same time, the interiors can be individually tailored, with the future owner invited to select the materials, finishes and key elements that will define the character of their home.

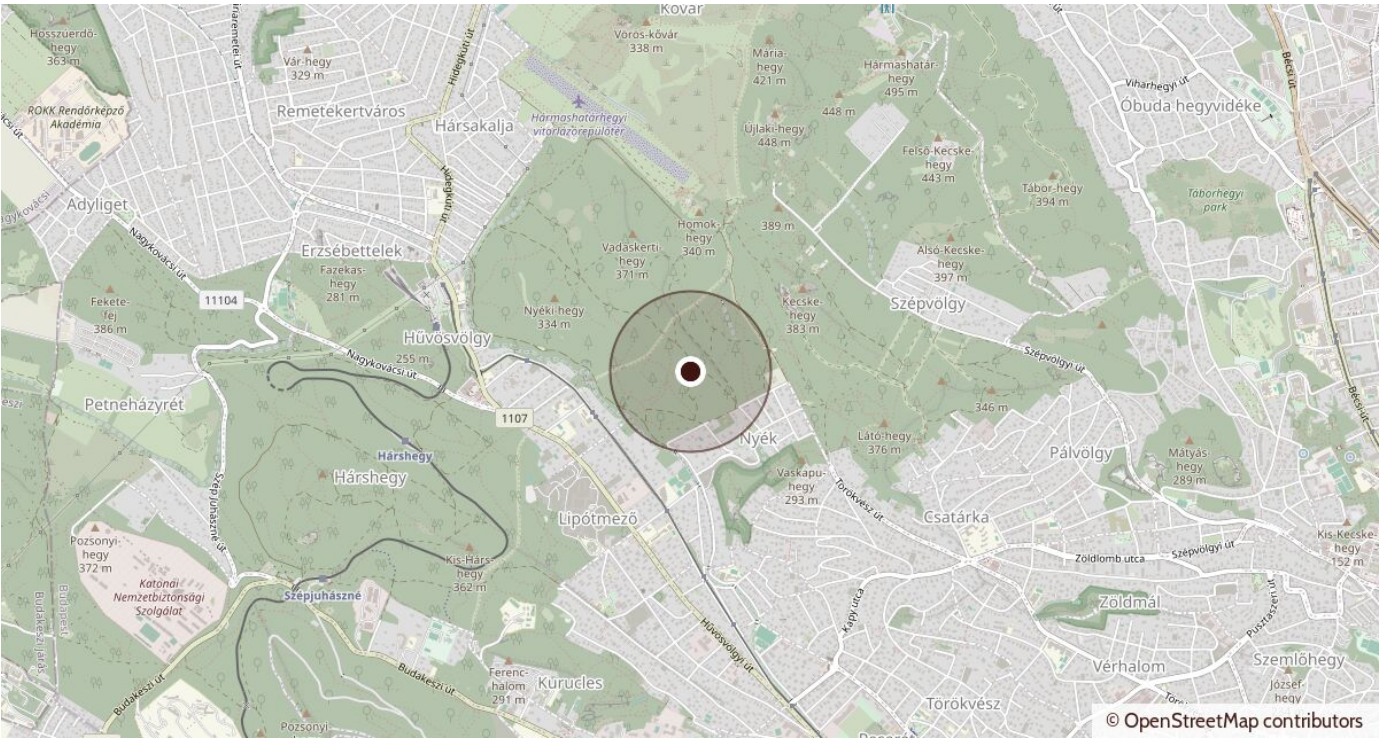

Törökvész Villa presents a rare opportunity to create a refined, highly individual city residence in one of Budapest's most sought-after hillside settings — complemented by a panorama that is exceptionally difficult to replicate within the city.
